To whom it may concern:

Kennedy Dery was a client of mine from 2017 to 2018, at which time I helped her find summer employment, and offered her support when she needed it. Kennedy worked at a Day care for 2 summers and she worked for Metis Nation of Alberta as an assistant administrator for Region II.

Kennedy excelled at her jobs during the summer. She was loved by the children that she cared for, and her managers that she worked with. Kennedy was given a great a great review from both employers, and was asked to return the next summer. Kennedy is always looking for ways to help in any way she can. She would take on extra shifts or volunteer to attend a function with Region II President. She enjoyed her time listening and helping our Elders in region II and would often pick up items for them if they were not able.

Kennedy is a self-sufficient woman who has a strong desire to achieve great success. She is a proud Metis youth who is engaged, enthusiastic, and very loyal. She demonstrates a strong self-sufficient woman who wants to succeed, and mentor children to become the best they can be.

I feel Kennedy is a strong candidate for this program because of her outlook on life, her desire to help others succeed and become better people.

Sincerely,

Thea Abdolhady
